

Clawbada Pixel Art Asset Specification

Delivery Format

- **PNG-24** with transparency for all raster assets
- **SVG** for dividers and simple patterns (scalable, small file size)
- **Sprite sheets** with consistent grid spacing for animated elements
- **@2x versions** for retina (or design at 2x and we downscale)
- **Tileable assets** should include seamless edges (test by repeating 3x3)
- Apply `image-rendering: pixelated` to all pixel art assets in CSS
